The conditions of admission

To take part in the admission process is completed education lesser degree: the Bachelor study - upper secondary education, the Master SP - bachelor level university degree with a state exam. The programs which will be held aptitude test is the successful implementation of the condition in the written procedure. part of the entrance examination. The success of the first round decides Dean on the recommendation of the Commission for entrance examinations. Content of entrance examinations in both rounds in the individual fields spelled out in theses received each applicant for study and will be posted on www.pdf.umb.sk. The Bachelor's program of preschool and elementary education, the talent entrance examinations took place.

In the case of inter-faculty teaching curricula conditions for acceptance for a period of study which does not implement PF UMB formulate and publish the relevant faculty.

General information on admission procedures

If the candidate wishes to apply for more study fields respectively study programs at the Faculty of Education you must submit a separate application for each study program separately and pay a fee for each application.

On the same field of study and study program the applicant cannot log on at the same time day and part-time study.

Study applicants who have completed a previous level of education abroad are required under of Act no. 422/2015 of. on universities and on amendments to certain laws present an authorized recognition of a qualification obtained outside the territory of the Slovak Republic. The decision on the recognition of the documents confirming the previous education must be submitted by the admitted applicant not later than on the day of enrolment.

Information on the implementation study

Applications must include all annexes referred to in the Guidelines on the application page. 3 and evidence of payment of the fee. The fee is not refundable. Incomplete applications will be returned. Transfers of applications within the fields of study and study programs are not possible after 31 March 2019. The procedure of replacement or additional terms of entrance examinations Dean decides on the basis of the current situation.

BSc: Proof of successful completion of the school-leaving examination for admission to undergraduate degree programs must be delivered to the admission office PF UMB immediately afterwards. The admission decision results of the entrance exam.

Master's degree programs: evidence of successful completion of the Bachelor's degree including the statement of WASR achieved during the Bachelor study (confirmed by the Study Department of the faculty where the candidate Bc. Study completed) must be delivered to the admission office PF UMB. The admission decisions weighted grade average achieved in Bc. study corresponding SP.

The principles of the entrance examinations are subject to daily and external study. Dean of PF UMB has the right based on the current state of the number of applicants to the program in question decide to inaction entrance examination or a section.

Dean of PF UMB has the right based on the current state (mainly according to the number) to decide an unrealized program of study in a given academic year.

Within 30 days after the completion of an entrance examination candidates will receive notification of acceptance or rejection of the study. In accordance with the Statute of PF UMB

the candidates may appeal against the decision of the dean of admission to study within 8 days of receipt.

In special cases the decision may be conditional on the adoption of that amendment by the named conditions come into force on that date.

In adopting international students it is progressing as students from Slovakia and the Dean based on the recommendation MŠVVaŠ SR respectively, proceed individually in accordance with the Law on Higher Education.

The procedure of replacement or additional terms of entrance examinations Dean decides on the basis of the current situation.

If the study does not show up on a set number of admitted applicants the Dean may submit a proposal to the Rector of UMB take additional candidates in the order of the results of entrance examinations and made the order.

The whole course of preparation, implementation and evaluation of the admission procedure is governed by the organizational and technical security entrance exams that will handle the vice-dean for education after the approval of the academic year at PF UMB.

The entrance examination for individual study programs

Content of entrance examinations is the same for both internal and external forms of study at PF UMB and published on www.pdf.umb.sk (Courses).

Andragogy (Bachelor's degree) - Successful completion of secondary school graduation examinations and of entrance exams is the prerequisite for admission into this study. The contents of entrance examinations is approved by the Department of Andragogy PF UMB under the guidance of the study guarantor. The admission criteria are approved by the management of the Faculty. The admission procedure and admission requirements are approved by the Faculty and University bodies being annually upgraded.

By passing the entrance examination the candidate demonstrates: acquired secondary school level of knowledge in the field of Pedagogy, Sociology, Philosophy, Social studies, insight about current educational issues and adult education in the Slovak Republic.

Entrance examinations are focused on issues of social pedagogy, sociology of education, social pathology, pedagogy, leisure education and relevant legislative standards. According to the current status of candidates, the Dean may decide on the omission of entrance examinations.

Pre-primary and Primary Teacher Education (Bachelor's degree) – the basic condition for admission to study is to obtain a full secondary education completed by a school-leaving examination. Adopters will meet the following criteria in the following areas:

1. The result of a written test in which the applicant's intellectual abilities are ascertained as well as his / her general knowledge.
2. Average of grades from the final grade for 1st - 3rd year of secondary school and 1st semester of 4th year of secondary education in subjects Slovak language and literature, mathematics and foreign language.

3. The results of the maturity exam. In addition, the applicant's activities will be taken into account, which must be documented by certificates, certificates, diplomas, or certificates from the organization where the activity was performed. The following activities will be evaluated: Secondary professional activity, participation in competitions in artistic, sporting, creative and other activities, voluntary work in the field of work with pre-school and younger school children, study stay abroad for a minimum of 3 months. The graduation of the basic art school will be particularly appreciated. Based on the current number of candidates, the Dean of the faculty may decide to forgive the admission tests or reduce the criteria. Further details on the weighting of individual criteria will be published on the PF UMB website (www.pdf.umb.sk) no later than May 2019.

Pre-primary Pedagogy (Master's degree) - Conditions for admission is first degree in the field of study Preschool and Elementary Education - study program in pre-school and elementary pedagogy state exam. The aim of the entrance examination is to check candidate's knowledge of the core departments forming the content of compulsory subjects bachelor's degree. If the Dean decides on the inaction entrance examination candidates will be recruited most successful bachelor's degree. The order adopted by the applicants shall be established based on the weighed average achieved learning outcomes. In diameter are counted and the results of Bachelor examination. Based on the current number of candidates the Dean may decide on the exemption of entrance examinations.

Primary Teacher Education (Master's degree) - Conditions for admission is first degree in the field of study Preschool and Elementary Education - study program Preschool and elementary pedagogy state exam. The aim of the entrance examination is to check candidate's knowledge of the core departments forming the content of compulsory subjects bachelor's degree. If the Dean decides on the inaction entrance examination candidates will be recruited most successful bachelor's degree. The order adopted by the applicants shall be established based on the weighed average achieved learning outcomes. In diameter are counted and the results of Bachelor examination. Based on the current number of candidates the Dean may decide on the exemption of entrance examinations.

Social Work (Bachelor's degree) – Successful completion of secondary school graduation examinations is the prerequisite for admission into this study. The contents of entrance examinations is set by the Department of Social Work under the guidance of the study guarantor. The admission criteria are approved by the management of the Faculty. The admission procedure and admission requirements are approved by the Faculty and University bodies being annually upgraded. The selection of applicants is based on the results of an interview. Interviews will focus on finding out the evidence of personal capabilities and skills necessary for university study, motivation to study, abilities to deal with social situations and the current socio-political insight of applicants.

Social Work (Master's degree) – the prerequisite for admission into this study is successful completion of Bachelor's study of Social Work or of a related study programme (Pedagogy, Psychology, Andragogy, Sociology etc.). The entrance exam has a form of a written test of the contents of the main subjects of Social Work Bachelor's study programme: historical, societal and philosophical bases of Social Work, Theory of Social Work, Methods of Social Work, Social policy, and Social Security.

Economics and Management of Social Work (Bachelor's degree) – for the study program Economics and Management of Social Work, the conditions are set as follows: Selection of candidates is made on the basis of the results of the oral interview. The content of the oral interview is the following topics: Demonstration of the necessary prerequisites and abilities for university studies, communication skills, motivation to study, solving the social situation, current socio-political and economic overview.

Psychology (Bachelor's degree) – for this study program, the conditions to be fulfilled are stated as follows: the applicant's selection is done by the means of written test covering the high school knowledge (from Psychology and Biology classes), the English language

comprehension of B1 level while working with a text, the assessment of general intellectual abilities, i.e. solving of verbal, numerical, logical and abstract tasks, and a detailed analysis of the personality profile. The written tests are usual standard form of the entrance exams. The entrance test content respects the fairy-minded approach towards the education and the entrance exams do not exceed the high school content and scope. The entrance exam realization and its evaluation and result publication are guaranteed to be consistently anonymous by the means of the applicant's code and confidentiality of his/her name. Only after the computer base evaluation and independent and objective determined order, the applicants' names are being addressed to the codes.

Psychology (Master's degree) – the admission to the study program is based on the study results achieved in the bachelor's degree program and the relevant activities of the applicant to the study department. A basic condition for admission is the completion of a bachelor's degree study in the sense of § 56 par. 2 of Act no. 131/2002 on Higher Education Institutions. The applicant may receive a maximum of 100 points in the admission procedure. On the basis of the points obtained, the recruitment committee compiles the order of the candidates. Adopted are the bidders with the highest number of points earned. Three criteria are judged: (1) the total benefit during the bachelor study stage, expressed in the weighted study average - 50 points; (2) the benefit of the bachelor's thesis defense - 30 points; (3) completed relevant activities to the study department - 20 points. Another condition for admission to study is the affinity of the study department of the completed bachelor study. The candidate is required to complete the previous bachelor study exclusively in the study field 7701 Psychology. The criteria used for assessing and selecting applicants for studies provide an appreciation of study prerequisites for university studies characterized by long-term study performance. The criterion of activity reflects the degree of motivation and engagement of the candidate beyond the scope of the study duties and at the same time makes it possible to assess the applicant's interest in learning. The applicant can gain points for activities such as: active participation in the scientific professional psychological event of the character of the conference, participation in the educational activity of the accredited MŠVVaŠ SR, MZ SR, MPSVaR SR, active participation in the ŠVOK chair, active participation in the national or international round of ŠVOK; student participation in foreign mobility within the psychology section). The terms of the admission procedure are reviewed and updated annually.

Important information for applicants and students with specific needs at the Faculty of Education of the UMB

How about college if I have a specific need?

Relevant information can be obtained from the competent staff of the Faculty of Education of the UMB - Deanery for Study Questions, Coordinators for Working with Students with Specific Needs, or the Head of the Study Department.

How to choose a study program

Consider the prerequisites for the selected study program in terms of:

- knowledge level and assumptions,
- technical and personal preparedness and motivation,
- claims on the content, scope and form of the study,
- the conditions offered by the university,
- limits resulting from disability.

In sufficient time to get qualified information about the difficulty and conditions of the study. Contact personally competent faculty staff and consult with their needs and support. In the current case together with the application form send a request for an alternative form of the admission exam if the admission procedure for the selected study program is held.

Students with Specific Needs at the Faculty of Education, UMB - assumptions for college education a well-prepared and well-equipped student candidate is available:

- the necessary knowledge potential,
- learning habits,
- provision for study and study program,
- habits and abilities to use their own functional potential to maximize self-sufficiency in the study.

This means that a student with these prerequisites will require special support, personal assistance and environmental assistance only in situations where a particular obstacle to the study is beyond his or her own power.

Coordinator for students with special education needs:
