

Gender equality in the ERA Community to innovate policy implementation (GENDERACTION)

Project Number: 741466

Duration: April 2017 – March 2021

Total planned expenditure: 23 500 €

Type of the Project: EU Framework Programme - H2020

Implemented by: Department of Social Studies and Ethnology,
Faculty of Arts

The aim of the project is to facilitate networking and exchange between several and less experienced countries aimed at developing knowledge and capacity building, competencies and know-how in the field of gender equality. The created network will map, monitor and evaluate the implementation of actions under gender equality priority 4 and gender mainstreaming at national level; promote exchanges and mutual learning between representatives of national authorities in order to achieve political coordination under Priority 4; provide interactive training for relevant stakeholders such as national authorities, RFOs and RPOs and NKBs to build up competence in Priority 4; provide strategic advice to key stakeholders in order to achieve gender equality in research and innovation in Europe; promote the integration of gender equality into international scientific cooperation (support for ERA-related work). This network will work closely with the Helsinki Group on Gender Equality in Research and Innovation.

This project is receiving funding

from European Union's Horizon 2020 programme
