

Innovative Experiences for a Better World

In recent years we have been confronted with environmental, social and economic changes that decisively affect people, organizations and societies globally. The Covid-19 pandemic, and more recently the war in Ukraine, have shown us the unpredictability of the world we live in and the need to be prepared for what we still don't know.

Universities play a fundamental role in the search for innovative solutions to the real challenges we face. In fact, research suggests that new ideas and innovative approaches rarely emerge when we work in isolation. It is exactly from the exchange of ideas and perspectives that there is greater potential for innovation.

Therefore, we invite colleagues from other universities to participate in 17th International Week of Universidade Europeia, IPAM Lisboa and IPAM Porto to promote debate and reflection on “future scenarios” with the potential to promote a Better World.

As usual the event will combine an International Staff Program and an International Lecture Program. Each participant can choose which program to participate in or even choose both. Please note: Participation in the International Staff Program is exclusive to university partners members.

Main Goals:

- Open the door of our University to the World
- Give International experience to students, teachers and staff;
- Disseminate mobility opportunities;
- Methodologies and knowledge exchange;
- Promote and Increase research
- Networking;
