Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-MAD-216en	Course name: Analysis of vague data
Type, extent and method of instruction: Form of instruction: Lecture / Practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: The evaluation of the subject is in accordance with the classification scale determined by the UMB study regulations. a) continuous assessment: written works 30% b) final assessment: written exam 40%, oral exam 30%	
Learning objectives: The student understands the difference between classical and many-valued logics. He is able to identify real life situations where classical or non-classical models are suitable. He is able to apply set operations with fuzzy sets. He knows the principles of fuzzy logic in processing linguistic data and is able to create models of simple fuzzy controllers of Mamdani and Takagi-Sugeno type.	
Brief outline of the course: Classical and many-valued logics. Fuzzy sets and set operations. Triangular norms and conorms. Negations and implications in fuzzy logics. Extension principle for arithmetic operations. Fuzzy relations and their composition. Fuzzy equivalences and partitions. Linguistic variables. Methods of approximate reasoning. Rulebase modeling based on fuzzy relations. Mamdani and Takagi-Sugeno controllers. Pattern recognition.	
Recommended literature: 1. G.J. Klir, B. Yuan: Fuzzy Sets and Fuzzy Logic. Theory and Applications. Prentice-Hall 1995. 2. H.J. Zimmermann: Fuzzy Sets Theory and its Application. Springer 2001.	
Language of instruction: English	
Notes: student time load: 150 hours combined study (L, S, E/LW, tutorials): 52 hours self-study: 98 hours

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-kgg-009en	Course name: Basic Geology
Type, extent and method of instruction: Form of instruction: Lecture / Practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 13 Method of study: combined	
Number of credits: 2	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: active presence on seminars: 10 % identification of rock and minerals 30 % b) final assessment: written exam 60 % : confirmation of required knowledge Final evaluation: continuous 40%, final exam 60%. The evaluation is in agreement with the classification scale determined by the MBU Study Regulations.	
Learning objectives: 1. Actively use basic geology terms 2. Understand processes leading to rock and mineral formation 3. Identify common rocks and minerals 4. Use and expand theoretical knowledge for following courses 5. Work with scientific literature 6. Prepare and give a presentation about a geology subject	
Brief outline of the course: 1. Basic term used in geology. Structure, composition and evolution of the Earth. Meteorites. 2. The theory of plate tectonics – Wilson cycle. 3. Earthquakes – types and investigation methods. 4. Outline of systematic mineralogy, physical properties of minerals. 5. Petrology – rock classification (igneous, sedimentary and metamorphic rocks) 6. Geologic time scale. Time and space in geologic history of the Earth, geochronology, relative and absolute age of rocks. 7. Deformation of rocks – types of deformation, deformation textures. 8. Exogene processes of the Earth – weathering, sedimentation, landslides. 9. Surface and subsurface fluvial processes, karst phenomena. 10. Marine and lacustrine geology. 11. Glacial and aeolian processes. 12. Outline of the regional geology of Slovakia.	
Recommended literature: 1. MARR, J. E. (2014): An Introduction to Geology. Cambridge University Press, 244 p.	

2. WINTER, J. D. (2010): Principles of Igneous and Metamorphic Petrology. Prentice Hall, 702 p.
3. ALDERTON, D., ELIAD S. A. (2021): Encyclopedia of Geology. Academic Press, 5634 p.

Language of instruction: english

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-aju-ER-310	Course name: British Society in Painting
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: Course assessment combines continuous assessment (50%) with a written final exam (80%). The continuous assessment consists of two written essays: 25 + 25 points. The final exam takes the form of a written test: 50 points. The course assessment corresponds to the standard A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65 points out of a possible 100. a) continuous assessment: essays: 50% b) final assessment: Final written test: 50% a) continuous assessment: Essays 50% b) final assessment: Final written test: 50%	
Learning objectives: After completing the course students will be able to: 1. Present in English the characteristics features as well as historical background to selected paintings from the 16th century up to the beginning of the 20th century, 2. Use the corresponding English vocabulary to discuss the most important periods in English paintings, 3. Appreciate the context of a historical period and its reflection in art (painting) 4. Think more critically and discuss, i.e. take a critical position on a topic related to art in a foreign language

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: E-BRST	Course name: British Studies
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 0 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 2.	
Level: I., II., III.	
Prerequisites:	
Course completion conditions: a) continuous assessment: attendance: 10 points ppt presentation: 30 points mid-term test: 0 – 30 points b) final assessment: final test: 30 - 0 points	
Learning objectives: The main goal of teaching specialized language is, in addition to professional terminology in many areas, also to include an information base about other cultures with which they will be confronted in their practice. The condition for active use of the language is productive communication skills, which are used not only for communication but also for obtaining information. By completing this course, the student will deepen and expand their knowledge of the English language, acquire new specialized terminology and develop skills to communicate on a given specialized topic. Subsequently, student is able to comment on specialized topics in the field studied, apply the acquired knowledge and language skills in future practice.	
Brief outline of the course: 1. Milestones in the Political Development of Great Britain (I – IV) 2. An overview of the United Kingdom 3. The Four Nations 4. The Political System I – Monarchy, Executive Branch, Devolved Governments 5. The Political System II – Legislation, Political Parties 6. The Political System III – the UK and USA, UK and EU

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: D_2_OR-aj	Course name: Business Negotiations (in English)
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: seminar paper: 15 points presentation on the topic of business negotiation: 15 points b) final assessment: preparation and presentation of a simulated business negotiation: 30 points test: 40 points	
Learning objectives: After the completion of the course, the student can: 1. use acquired knowledge and skills in negotiation, 2. draw up the agenda for a negotiation, 3. conduct a discussion, listen actively and ask effective questions, 4. present arguments for persuading the other party, 5. solve conflicts and handle breakdowns, 6. make and respond to proposals, 7. use different negotiating styles, strategies and tactics, 8. summarize the results of negotiation.	
Brief outline of the course: Definition of negotiation. Intercultural aspects of negotiation. Strategies, tactics and styles in business negotiation. The principal stages of a formal negotiation. Relationship-building. Putting together a team for an international negotiation. Starting the negotiation – small talk. Setting objectives, drawing up the agenda, timing, procedure, establishing positions and exploring interests. Making and responding to proposals. Body language. Bargaining – exerting pressure, making concessions and attaching conditions. Persuasive tactics and responding to pressure tactics. Non-ethical negotiating tactics. Options for dealing with problems and conflicts. Conclusion and follow-up actions. The individual stages of negotiation are practised in the form of role-plays and the final output is a team presentation of a complex simulated business negotiation.

Learning objectives:

Knowledge gained in the course:

-fact-based information about geography, history, political system and institutions of North America and Canada

-interdisciplinary information about the development of literature and culture in North America and Canada

Page: 2

-terminology in English and Slovak languages for the analysed phenomena (such as political systems, institutions, etc.)

Skill gained in the course:

Students can:

-read academic texts, analyse them and present selected texts in broader cultural contexts,

-apply presentation and argumentation skills,

-analyse the most recent research and field-based information, apply analytical and critical thinking, enhance empathy and creativity,

-apply their foreign language skills and discuss selected cultural phenomena at B2 level,

-further develop their presentation and digital skills, conduct research in digital environment, use educational platform Moodle, design a project and present it.

Competences:

Students can:

-participate in a discussion, defend their arguments,

-read and think critically, present their opinions in academic manner,

-transmit the cultural message of the anglophone countries in educational or cross-cultural environment,

-use self-study strategies,

-read scholarly literature in foreign language,

-use their intercultural competences,

-use their competences to participate in a professional life.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: D_2_P SzMVS-aj	Course name: Case Studies from Public Sector Management
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: Final assessment: a) Active participation during case-studies' presentations (50 points) b) semester project (case study) and its defence (50 points)	
Learning objectives: student can 1. critically analyse the current trends in public sector management, 2. provide arguments on basis of the acquired knowledge in a discussion with a professional, 3. create case study using methodological concepts and compare the findings with current knowledge published in research papers.	
Brief outline of the course: - this course is based on presenting case studies from current practice and presentations provided by professionals/experts from practice, who are in leading/managerial positions in public sector organizations on various levels (local, regional, national), - case studies are provided a few weeks before the presentation with supporting literature and students are required to study the materials, dig into the problematics and prepare relevant questions for the presenters (strengthening the competence to understand the topics and place relevant questions) - one week before the seminar led by an expert, the teacher introduces the given topic/problem - at the seminar led by an expert, the students actively participate in discussion about the problems of practical application of their knowledge based on analysed case study and prepared questions. Key topics covered: 1. Public sector performance management – concepts and design 2. Strategic performance management of central government – legal and managerial consequences 3. Public governance and smart governance. 4. Local governance participation. 5. Alternative service delivery arrangements Contracting out in public sector. Contract management in public sector. 6. Behavioural economics in public sector. 7. Alternative funding of public services. Co-creation. Co-production. Crowdfunding.	

8. Participatory budgeting.
9. Implementation of digital tools in governance.
10. Potential of ecosystem services and its importance for local and regional stakeholders.
11. Place marketing. Place branding. Place marketing strategies.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: D_2_PszCR2-aj	Course name: Case Studies in Tourism 2 (in English)
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: elaboration and presentation of case study (0-60 points), b) final assessment: written exam (0-40 points). The number of points to be earned for continuous and final assessment is 100 on the grading scale. Credits are assigned to the student who has obtained a minimum of 65 out of 100 points for fulfilling the requirements of the course assessment. a) continuous assessment: Elaboration and presentation of case study (0-60 points). b) final assessment: Written exam (0-40 points).	
Learning objectives: Student: <ol style="list-style-type: none"> 1. is able to use the acquired knowledge from previous subjects to evaluate the level of tourism development in selected destinations, 2. is able to critically evaluate the destination managements in Slovakia and abroad, 3. is able to analyse best practices of tourism destination development and apply on the conditions of Slovakia, 4. can manage destination management organization. 	
Brief outline of the course: <ol style="list-style-type: none"> 1. Vision and planning in tourism destination 2. Destination management organization and its role 3. Cooperation in tourism destination 4. Product development in tourism destination 5. Product distribution of tourism destination 6. Marketing communication of tourism destination 7. Digital destination marketing 8. Destination management system 9. Customer relationship management in tourism destination 10. Competitiveness of tourism destinations 11. Sustainable tourism development in destination 	

12. Trends in tourism development in destinations

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: E-CP1	Course name: Comparative Politics I.
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 0 Method of study: combined	
Number of credits: 6	
Recommended semester/trimester: 1.	
Level: I., II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: FULL-TIME FORM OF STUDY: Active participation during seminars: 25 points Classification of seminars include: active participation in seminars related to the fulfillment of tasks that are assigned by the teachers during the semester. Failure to complete the assigned task (inadequate preparation for the seminar) is assessed by absence. During semester, 1 non-participation is accepted due to a medical condition, which will be justified upon submission of a medical report / confirmation. For each unjustified absence from the seminar, the student loses 5 points from the overall evaluation without the possibility of replacement. The same conditions apply for 3rd year students who repeat the course. Students with an approved extraordinary study plan are following the conditions set in the extraordinary study plan and the instructions published in the LMS moodle portal. PART-TIME FORM OF STUDY: Assignments in LMS Moodle completed in terms and according to the instructions published on the course page in LMS Moodle: 25 points. b) final assessment: FULL TIME FORM OF STUDY: final written exam: 75 points The date and form of the final exam will be specified during the semester. The student has an obligation to study the recommended literature, which is part of the course syllabus and was not taught. In the case of students who have enrolled in the course repeatedly (3rd year), the correction term is realized in the form of an oral examination conducted in front of the commission (unless the subject teacher or the head of the department determines otherwise). PART-TIME FORM OF STUDY: Final exam: 75 points The student has an obligation to study the recommended literature, which is part of the course syllabus and was not taught.	
Learning objectives: Knowledge: The student understands the basic context of the functioning of the american and british political system. He can name the most important aspects, explain the basic concepts and clarify the structure of these political systems. Skills: The student has adequate presentation, communication and educational skills. He perceives the presented information in context. He is able to analyze and evaluate at an adequate professional level the basic phenomena of practical politics related to the issues of the british and american political system. He is able to make a comparison, on the basis of which he can identify common and different features of the functioning of the British and American political systems. He is able to apply the acquired knowledge in practice and in research of	

other political systems. Competences: The student is able to solve professional tasks, can bring and formulate a sketch of possible scenarios for the development of researched phenomena appropriate to the degree completed.

Brief outline of the course:

1. Historical and political specificities of the formation of American political system. 2. The Constitution of the USA as the foundation for organisation of the American political system. 3. Horizontal division of power in the U.S. and the checks and balances system. 4. Legislative power and its position within the American political system. 5. The issues of executive power and the position of the president in the US political system. 6. Impeachment - the mechanism of internal control of the US political system. 7. The selected specificities of the organisation of judicial power and its position within the US political system. 8. The selected specificities of American party system. 9. The constitutional framework as a foundation of British political system. 10. The basic characteristic of horizontal division of power in the United Kingdom of Great Britain and Northern Ireland. 11. Legislative power and its position in British political system. 12. Executive power and its position in British political system. 13. The selected specificities of the organisation of judicial power and its position in British political system. 14. The selected specificities of British party system. 15. Analysis of the selected decisions of the US Supreme Court, their interpretation and impact on American political system I. (Marbury vs. Madison, Scott vs. Sanford, McCulloch vs. Maryland) 16. Analysis of the selected decisions of the US Supreme Court, their interpretation and impact on American political system II. (Plessy vs. Ferguson, Brown vs. Education Board of Topeka, Baker vs. Carr, Schenck vs. US) 17. Comparison of vertical division of power in the US (federalism) and in the United Kingdom of Great Britain and Northern Ireland (unitarism), including the devolution process.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-uch-202en	Course name: Computer-Supported Experiments
Type, extent and method of instruction: Form of instruction: Lecture / Practical / Seminar / Laboratory practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 0 / 0 / 0 / 26 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: a) Interim assessment: Active participation in all exercises, preparation, and submission of protocols from individual exercises. Demonstration of sufficient practical skills when working with experimental measurement systems in individual exercises b) Final assessment: passing the final test at min. 65%. Final assessment (the exam/seminar ratio on the final grade): P - 50%, S - 50%. The evaluation of the subject is in accordance with the classification scale determined by the Matej Bel University Study Regulations.	
Learning objectives: A student: <ul style="list-style-type: none"> • Applies the acquired knowledge to build its own overview of current trends in the field of computer support for experimental activities of pupils in primary and secondary schools, knows the available measurement systems, • Has sufficient skills in working with experimental measurement systems and is able to work with Vernier, ISES and SM System measurement systems, • Applies basic didactic and pedagogical-psychological aspects of teaching in a computer-supported laboratory (MBL – Microcomputer-Based Laboratory) to the teaching of chemistry, • Can independently create experimental tasks and assignments that can be implemented in MBL, • Can apply the principles of computer-supported experimentation to online teaching of chemistry. 	
Brief outline of the course: School computer-supported experimentation in the context of the content of chemistry education according to State Education Program ISCED 2 and ISCED 3A. Pedagogical and pedagogical-psychological aspects of school computer-supported experimentation. Computer-assisted experimentation as a motivational factor in chemistry teaching. Experimental computer measurement systems and their components: data loggers, sensors, interfaces. Acquisition and processing the data by means of the school's experimental measurement system. Experiments with a thermal sensor. Experiments with a pH sensor. Experiments with a conductivity sensor. Experiments with a pressure sensor. Experiments with CO ₂ and O ₂ sensors. Experiments with electronic scales. Biochemical experiments. Experiments using two or more sensors.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-MAD-102en	Course name: Dynamical systems 1
Type, extent and method of instruction: Form of instruction: Lecture / Practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 39 / 13 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: The evaluation of the subject is in accordance with the classification scale determined by the UMB study regulations. a) continuous assessment: written works 30% b) final assessment: written exam 20%, oral exam 50%	
Learning objectives: The student will learn about some important dynamical systems. The student is able to describe dynamics using exact terms such as periodic points and omega-limit sets. Understands the concept of conjugacy and can judge whether two systems are conjugate. Is familiar with the exactness-mixing-transitivity hierarchy. Understands the meaning of the concept of deterministic chaos and its implications for predicting phenomena.	
Brief outline of the course: Three components of the concept of a dynamical system (phase space, time, law of time evolution). Examples of dynamical systems in the history of mathematics. Basic concepts and examples: the notion of a dynamical system with discrete time and continuous time, rotations of the circle, applications in number theory (Gelfand's problem of first digits), expanding maps of the circle, endomorphisms of the torus, autonomous differential equations, transition from discrete time to continuous time (suspension) and vice versa (discretization of time, Poincaré map), invariant sets. Topological dynamics: limit sets, recurrence, topological exactness, dense periodicity, topological transitivity and existence of a dense orbit, minimality, mixing, chaos. Topological conjugacy, factor, extension. Topological entropy.	
Recommended literature: 1. BARREIRA, L., VALLS, C.: Dynamical Systems. Springer 2013. 2. STERNBERG, S.: Dynamical Systems. Dover 2010. 3. GOODSON, G. R.: Chaotic dynamics. Fractals, tilings, and substitutions. Cambridge University Press 2017. 4. BRIN, M., STUCK, G.: Introduction to dynamical systems. Cambridge University Press 2002.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-MAD-106en	Course name: Dynamical systems 2
Type, extent and method of instruction: Form of instruction: Lecture / Practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 39 / 13 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: The evaluation of the subject is in accordance with the classification scale determined by the UMB study regulations. a) continuous assessment: written works 30% b) final assessment: written exam 20%, oral exam 50%	
Learning objectives: The student learns the basic methods of combinatorial dynamics based on graph theory. The student can evaluate the stability of cycles. Can apply Banach fixed point theorem in dynamics and beyond. Can use the Hausdorff metric, produce attractors of iterated function systems, and in some cases determine their Hausdorff dimension. The student knows the concept of a fractal. Can apply the Perron-Frobenius theorem in various areas of mathematics. Uses symbolic dynamics as a tool to analyze general dynamical systems using space discretization.	
Brief outline of the course: Continuous interval maps: itinerary lemma, Markov graph of a cycle, Sharkovsky theorem, Feigenbaum's constant, attracting fixed points and attracting cycles, Singer theorem. Banach fixed point theorem, its dynamical interpretation, estimation of error in fixed point computation, variations on Banach theorem, applications. Iterated function systems: Hausdorff metric, Hutchinson theorem, fractals. Perron-Frobenius theorem and its applications. Symbolic dynamics: full shift, its properties, examples of coding, horseshoes and entropy, subshifts, forbidden words, subshifts of finite type, their properties.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-ebi-101en	Course name: Ecological Synthesis
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 26 Method of study: combined	
Number of credits: 6	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: a) interim assessment: seminar project on one of the topics covered b) final assessment: b) final assessment: oral examination, achieving a minimum pass mark of 65 %	
Learning objectives: Student: 1. can apply the knowledge gained to ask the right questions and find systemic solutions, e.g. environmental change problems through the prism of systems ecology and ecological synthesis; 2. is able to analyse the structure, dynamics and functions of ecological systems; understand the network architecture, principles, mechanisms and processes of organisation of these systems; 3. can apply knowledge of systems ecology and new theories of ecological complexity, e.g. non-equilibrium thermodynamics of living systems and adaptive ecosystem developmental cycles; 4. can assess the ecological sustainability of proposed solutions, e.g. the controversial use of biomass for electricity production or in the management of grassland or forest ecosystems; 5. can apply some indicators of ecological complexity (e.g. based on species diversity) and ecological integrity (e.g. indirect assessment based on the hemeronomy of ecosystem vegetation).	
Brief outline of the course: The scientific paradigm and drivers of the environmental crisis. The projection of systems theory and complexity theories into ecology. Planetary ecological limits and the risk of abrupt Earth system change. Fundamentals of natural systems architecture, biogeochemical cycles and their disruption. Drivers of life: energy and information, environmental implications of thermodynamic laws. Principles of organisation of ecological systems, self-organising and self-regulating mechanisms, networks and hierarchies. Ecological complexity, integrity and non-equilibrium thermodynamics of ecological systems. Evolutionary framework of cooperation and integrity, experimental ecological thermodynamic law. Food webs, energy flows and ecological efficiency. The ecosystem as a complex adaptive system, emergent properties and adaptive evolutionary cycles. Ecosystem services, their typology and assessment. Application of ecological synthesis techniques to the analysis of ecosystem disturbances and the search for sustainable solutions - using agriculture, forestry and climate change as examples. One possible approach to assessment of ecological complexity and integrity of ecosystems.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-ajmL-ER-316	Course name: English Language B2 for FF UMB students
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: This elective course is intended for students of sports education, sports science and other humanities and philology studies at the Faculty of Arts, UMB in Banská Bystrica, except for study programmes English Language and Culture, English for Translation in Economic Practice and Teaching English Language and Literature. Students will take three written continuous assessment tests during the semester. Upon completion the course students will take a written final test. Credits will not be awarded a student who scores less than 65% on the continuous assessment tests and the final test. The student is entitled to one re-sit exam. The assessment is in compliance with the following grading scale: A (100-94%), B (93-87%), B (93-87%), B (93-87%), C (86-80%), D (79-73%), E (72-65%). a) continuous assessment: Three continuous written tests: 30% Active participation in seminars: 10% b) final assessment: Written final test: 60%	
Learning objectives: The student: <ol style="list-style-type: none"> 1. understands not only essential but also specific information in broader English texts and can communicate in more challenging communicative situations in the professional and private spheres; 2. masters upper-intermediate language activities and strategies in English (listening comprehension, speaking, writing, reading comprehension) 3. is able to identify elements of narrative style in written discourse at B2 level; 4. is able to translate from/into English texts at B2 level; 6. is able to use summarising techniques to summarise relevant data. 	
Brief outline of the course: Selected topics include: <ol style="list-style-type: none"> 1. Passions and fashions 2. No fear! 3. It depends how you look at it 4. All things high tech 	

5. Seeing is believing 6. Telling it how it is

Code: 2d-EFP1-521	Course name: English for Professionals 1
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: continuous assessment: Active participation in 70% seminars during the term based on pre-prepared home assignments - 40 points (at least 20 points). 2 presentations - 60 points (at least 45 points). b) final assessment:) final assessment: On the basis of the continuous assessment. The assessment is the sum of points achieved in each part of the assessment. During the semester the student actively participates in exercises based on the home self-study (40 – 20 points) and he/she has successfully completed 3 continuous tests (60 – 45 points). To obtain the assessment A he/she must obtain at least 94 points, for B at least 87 points, for C rating of 80 points, for D at least 73 points and for E at least 65 points. The student will not be granted the credits until the student has met the minimum requirement in each component of the assessment.	
Learning objectives: Completing the subject successfully means that the student: can understand, and explain the functional use of acquired specific vocabulary in the chosen scientific area (500 words and idiomatic connection). can understand and explain the functional use of acquired specific grammatical structures, characterizing academic and professional style. can understand and explain the functions used to assess the suitability of a specific professional-academic language teaching methods and techniques related to the studied topics in the outline. acquires and can use functionally specific microskills of academic writing (abstract, outline, written evaluation, powerpoint presentation), of reading, interaction and monologue (presentation, contribution in discussion).	
Brief outline of the course: Explaining the term English for Specific Purposes for several study fields. Theoretical outcomes of the theory of adult learning, analysis of educational-psychological needs of adult learners, linguistic theories. Basic goal taxonomies and aims of the subject (individual and group work). Revised Bloom's taxonomy – with tasks in the context of the study field. Development of critical thinking - the development of higher cognitive functions (across the age spectrum of learners). Graphic	

organizers of professional learning English. Development of creative thinking - the method of conceptual maps (T. Buzan).

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: E-EUIN	Course name: European Integration
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 0 Method of study: combined	
Number of credits: 6	
Recommended semester/trimester: 1.	
Level: I., II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: Continuous submission of mandatory assignments within individual seminars during the semester. Fulfillment of this obligation is not evaluated by points, but proper fulfillment of this obligation is necessary for admission to the final exam. Academic essay - 30% of the total evaluation b) final assessment: Final exam - 70%	
Learning objectives: The course aims to provide students with a general overview of the basic attributes of functioning for the Slovak Republic the most important integration grouping - the EU. The student will analyze primarily during the study the political dimension of integration processes in the EU and thus gains the information base necessary for the graduate of the given study program and at the same time for the follow-up subjects in the master's study. At the end of the course, the student will specifically examine the position of the Slovak Republic within the EU. Students should thus gain an overview not only of the day-to-day functioning of the EU but also of the possibilities and position of the Slovak Republic in influencing political processes within the EU	
Brief outline of the course: 1. The beginnings of modern ECSC / EEC / Euratom European integration. EC deepening and enlargement. 2. The treaty basis of European integration: From Rome to Lisbon 3. European Council and Council of the EU - composition, meaning, tasks 4. European Commission and European Parliament - composition, meaning, tasks 5. Economic and Social Committee, Committee of the Regions and other institutions, European agencies 6. EU decision-making (decision-making procedures, advocacy) 7. Introduction to EU policies (origin, scope, relevance) 8. EU internal policies 9. EU external policies 10. EU budget (MFF, annual budget, specifics of the distribution of funds in the EU area) 11. Development of Slovakia's membership in the EU, perception of Slovakia in the EU 12. Current challenges and problems of the EU

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 1d-FPP	Course name: Freedom in Political Philosophy
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 2.	
Level: I.	
Prerequisites:	
Course completion conditions: The prerequisite for passing the course is attendance at seminars (max. 2 absences are allowed) and active participation of students in class. The course assessment is made up of a combination of an interim assessment (40%) and a final assessment (60%). The evaluation is in accordance with the classification scale according to the Study Regulations of Matej Bel University. a) continuous assessment: The interim assessment is made up of a score for students' participation in a discussion on the analysis of the content of the specified texts, and is 40% of the overall course grade. b) final assessment: Final assessment in the form of a written paper (test, open questions), constituting 60% of the total course grade.	
Learning objectives: By taking the course Freedom in Political Philosophy, the student acquires basic theoretical knowledge in the field of political philosophy related to the issue of freedom. At the same time, the student is able to discuss and argue his/her positions on this issue in the English language. The course develops students' critical thinking as well as their language skills.	
Brief outline of the course: 1. The Hart-Devlin Debate/ J. S. Mill on Liberty – analysis/discussion 2. R v Dudley and Stephens/ Classical Utilitarianism on Liberty - analysis/discussion 3. The Slaughterhouse Cases/ Freedom and Coercion in Hayek's Thought 4. Positive and Negative Liberty/ Isaiah Berlin 5. Individual Liberty/ Hillel Steiner 6. Freedom and Politics / Hannah Arendt 7. Freedom and Thought/ Hannah Arendt 8. Freedom and Women/ Betty Friedan, Martha C. Nussbaum 9. Freedom and Technology/ Martin Heidegger 10. Exercising Freedom/ Judith Butler, Martha C. Nussbaum 11. Nikolai Berdyaev – Philosopher of Freedom 12. Discussion / Students' Presentations 13. Discussion / Students' Presentations

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-fjs-ER-003	Course name: French Literature after 1913
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 13 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: 20% of the final evaluation is represented by the ongoing activity of students during seminars dedicated to the analysis of works and excerpts from works by selected French authors of literary directions, movements and tendencies. After the end of the semester, the student: - passes a written final exam (in the form of a test with open questions - 40%), and has the right (in the case of Fx evaluation) to one correction period, - submits a seminar paper focused on the analysis of a selected literary work from the field of French literature, by which he will demonstrate his ability to use the literary conceptual apparatus acquired during it, as well as his ability to interpret a literary text (40% of the total evaluation). The course assessment corresponds to the A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65% out of a possible 100%. a) continuous assessment: Active participation in class (analysing extracts of selected literary works): 20% b) final assessment: final written test (with open questions): 40% seminar paper (analysis of a selected literary work): 40%	
Learning objectives: Course aims: Students will: 1. learn theoretical, philosophical and aesthetic base of literary avantgardes, movements and tendencies in French literature of 20th and 21st century, 2. be able to identify typical features of studied literary movements and tendencies on the basis of acquired knowledge, 3. be able to apply theoretical knowledge in analysis and interpretation of selected literary works (texts). 4. understand context and mutual relations between various literary texts.	
Brief outline of the course: 1. Paths to the modern novel (Proust, Gide). 2. Writers of "human fate" (Malraux, Exupéry, Céline). 3. Breakthrough years 1938-39. 4. Existentialism (Sartre, Camus, Beauvoir). 5. Original novel world (Vian). 6. New novel (Sarraute, Robbe-Grillet, Butor, Duras).	

7. Searching for a new language (Oulipo – R. Queneau).
8. "New New Novel" (Tel Quel movement, P. Sollers).
9. Tendencies of French literature after 1980 (Echenoz, Ernaux, Darrieussecq, Houellebecq).

Faculty: The Faculty of Economics						
Code: 2d-fj-ER-001		Course name: French language 2				
Type, extent and method of instruction:						
Form of instruction: Seminar						
Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses)						
Recommended number of periods: 26						
Method of study: combined						
Number of credits: 3						
Recommended semester/trimester: 2.						
Level: II.						
Prerequisites:						
Course completion conditions:						
The maximum total number of points obtained for the interim and final assessment is 100. Credits will be awarded to a student who has earned at least 65 out of 100 points for fulfilling the specified requirements.						
a) continuous assessment:						
participation and activities in classes (0-20 points)						
b) final assessment:						
final exam (0-80 points)						
Learning objectives:						
The student 1. uses basic language skills in French, 2. is able to talk about his interests and his plans for the future. 3. can write an e-mail asking for something. 4. can talk about events that took place in the past.						
Brief outline of the course:						
1. Understand interests and preferences based on recordings and then be able to talk about yours. 2. Weekend plans. 3. Description of the house/apartment and its equipment. 4. Gastronomy in France and Slovakia. 5. Tense of irregular verbs. 6. Free time.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-ebi-202en	Course name: Freshwater Biology
Type, extent and method of instruction: Form of instruction: Lecture / Practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 26 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 1., 2..	
Level: II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: continuous evaluation: active participation in seminars b) final assessment: final evaluation: written exam aimed at proving the required level of knowledge from the topics presented during lectures, completed seminars and self-study (achieving a minimum success rate of 65%)	
Learning objectives: Student: 1. understands the basic terms related to aquatic ecology (limnology) and the historical development of water ecosystems (paleolimnology); masters the terminology; is aware of the interdisciplinary nature of the subject; 2. is able to describe the structure and functioning of aquatic ecosystems; can determine key taxonomic groups, their importance in systems and in bioindication; masters the basic methodological procedures for processing and evaluating paleolimnological material; 3. can form his/her own judgment about the consequences that may have human intervention in stagnant and flowing waters and their basins and is able to predict their further development.	
Brief outline of the course: The uniqueness of the limnic biocycle. Vertical and horizontal gradients of conditions and resources in the aquatic environment. Spatial structure of stagnant and flowing waters and their communities. Key groups of aquatic invertebrates and vertebrates, their habitat, food preferences and other ecological demands, bioindicator potential and threats. Functioning of aquatic ecosystems: energy sources and trophic relationships: keystone species, trophic levels, trophic cascades, bottom-up and top-down theories, biomanipulations. Lake ecosystem concept. Watershed as an ecosystem. Alluvium and hyporheic zone. River Continuum Concept and other concepts (Serial Discontinuity Concept, Nutrient Spiral Flow, Flood Pulses). Classification of lakes and running waters. Extreme aquatic biotopes: bogs, underground and periodic waters. Paleolimnology and its tools for understanding the ontogeny and prediction of further development of lakes and bogs in a changing landscape.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-MAD-205en	Course name: Functional Analysis
Type, extent and method of instruction: Form of instruction: Lecture / Practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 39 / 13 Method of study: combined	
Number of credits: 6	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: The evaluation of the subject is in accordance with the classification scale determined by the UMB study regulations. a) continuous assessment: written works 40% b) final assessment: written exam 60%	
Learning objectives: The student masters and understands the basic definitions (knows which term the definition introduces, understands the meaning of other terms and symbols in the definition, has an idea about the correctness of the definition, and can illustrate the definition with appropriate examples). The student masters and understands basic theorems (knows the meaning of all terms and symbols in the theorem, has an idea about the sense and logical structure of the theorem, can support the theorem with suitable examples and counterexamples, and can prove the theorem). The student can solve basic types of problems (understands all terms and symbols in the problem statement, knows and can specifically use the computational procedures necessary for solving the problem, and can justify all steps in their problem solution). The student can express themselves in terms and symbols and, if possible, also graphically (can illustrate their reasoning with a diagram).	
Brief outline of the course: Normed linear spaces. Quotient normed linear space. Continuous linear operators and functionals. Dual space. Isomorphism and equivalence of norms. Finite dimensional spaces. Riesz lemma. Analytic versions of the Hahn-Banach theorem. Reflexivity. Geometric versions of the Hahn-Banach theorem. Baire theorem and its consequences. Uniform boundedness principle and Banach-Steinhaus theorem. Open mapping theorem and its consequences. Closed graph theorem. Lebesgue spaces and their completeness. Hilbert spaces. Orthogonal complements and orthogonal projections. Fréchet-Riesz theorem and reflexivity of Hilbert spaces. Orthogonal series, Parseval's identity and Bessel's inequality. Hermitian, normal and unitary operators.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: E-GET	Course name: General Economic Theory
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 0 Method of study: combined	
Number of credits: 6	
Recommended semester/trimester: 1.	
Level: I., II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: continuous test, continuous evaluation consists of 40 points from the overall evaluation The set conditions of the continuous evaluation also apply to students of external studies. b) final assessment: final test, the final evaluation consists of 60 points from the overall evaluation The set conditions of the final evaluation also apply to students of external studies.	
Learning objectives: Knowledge: The student knows the interdisciplinary nature of economics, and can explain the basic macroeconomic and microeconomic concepts, phenomena, and categories of economic theories. He masters the methodological approaches to the study of various aspects of the subject of economics understands the thesis of economics as an intersection of sciences and can define the individual main lines of its research. He has basic practical and methodological knowledge of key areas of economic knowledge, which serves as a basis for practice. Skills: The student can interpret the main directions of social science research in economics, and can analyze knowledge from the history of economic thinking. He independently formulates his own analytical and critical views based on theoretical, empirical knowledge, and logical arguments of economic science. Competences: The student can autonomously and effectively apply economic theory in practice. He assesses the functioning of a particular economy, and market mechanism with emphasis on its limitations and understands the economic context of the field of study.	
Brief outline of the course: 1. Subject of research and basic terms of economics. 2. Economy and economics, basic types of economies. 3. Economic sciences, relationship to the other sciences. 4. Methodology of economics. 5. Economics as historical and logical science. 6. Basic economic sources and their characteristics, economic goods. 7. Optimality of production possibilities and their measurement. 8. Socio-economic categories and laws. 9. Market mechanism, basic elements of the market mechanism. 10. Limitations of market mechanism- externalities, public goods. 11. The macroeconomic market equilibrium. 12. Competition and its functions. 13. International trade- essence, components, functions.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-aju-ER-213	Course name: Innovative trends in ELT
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: During the semester, students will read one article from ELT Forum or other ELT Methodology related journals and will create a summary of the text (0-10 points). Later the student will simulate a class using innovative methods (0-20 points) based on preparing the lesson plan (0-20 points). After the end of semester, the students will sit in the written final exam (0-50 points). The course assessment corresponds to the standard A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65 points out of possible 100. a) continuous assessment: Creating a lesson plan, simulation of a lesson b) final assessment: written exam	
Learning objectives: The student: -is capable of using key ELT terminology referring to innovative trends in ELF context, -understands cardinal principles of different methods and their use in language classroom, -is able to create a lesson plan and integrate innovative trends as part of it, -knows how to motivate learners of different age groups, -is capable of self-reflection -applies appropriate didactic approach when dealing with different sources, -is able to reflect on different types of activities which are used to develop global skills of learners.	
Brief outline of the course: EFL teaching in the context of new trends. Selection of teaching methods and styles in the context of the 21st century. Games in the context of the 21st century and their importance in the EFL context. Modern technologies and apps in EFL context. Development of global skills (critical thinking, collaboration, creativity, digital skills) of future teachers and pupils of English. Teaching the language through culture and cultural heritage. Macmillan and OUP and their role in developing intercultural competence of pupils. Teacher as a source of innovations. Development of emotional intelligence of learners through innovative trends in teaching the language.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2-IER	Course name: International Economic Relations
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 26 Method of study: combined	
Number of credits: 6	
Recommended semester/trimester: 2.	
Level: I., II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: Continuous submission of mandatory assignments within individual seminars during the semester. Fulfillment of this obligation is not evaluated by points, but proper fulfillment of this obligation is necessary for admission to the final exam. b) final assessment: Final exam - 70%	
Learning objectives: Students will deal with theories and concepts of international economic relations between states and non-state actors. The study of the subject is based on the understanding of interactions and changes using an integrated way of looking at international politics and economics. The student will understand the basic theories in the field of international political economy and will understand the functioning of the mechanisms that govern international trade and the financial system. In addition, the student will be able to critically evaluate current trends related to economic integration, globalization and sustainable development support.	
Brief outline of the course: 1. Theoretical basis of international political economy - mercantilism, liberalism, neo-Marxism 2. Functioning of the international trading system 3. Global financial and monetary system 4. Integration and regionalism 5. Challenges and transformations of globalization in the 21st century 6. Sustainable development ; Two lectures and two seminars will take place within each topic.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: E-IHTIR	Course name: Introduction to History and Theories of International Relations
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 0 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: I., II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: 5 opinion essays submitted via Moodle system (25 points) mid-term test (15 points) presentation of assignments (10 points) b) final assessment: written exam (25 points) oral exam (25 points)	
Learning objectives: The course provides an overview of the historical development of international relations as a social science and focuses on two dominant theories in the context of the process of establishing international relations. Students acquire knowledge about the different approaches to the historiography of IR, they learn to distinguish the different myths that are part of the historiography. Moreover, they acquire abilities to critically assess and evaluate the main concepts used in IR, and understand the changing meaning of these concepts over time. In addition, they will be trained to use the traditional approaches to IR as a tool for analysis of the realities of IR.	
Brief outline of the course: 1. Introduction into International Relations as a science 2. Traditional approach to history of IR 3. Critical historiography and myths on history of IR 4. The issue of great debates 5. Liberal theory of IR - liberal internationalisms, liberalism during Cold War, liberal moment, crisis of liberal world order 6. Realist theory of IR - classical realism, neorealisms, offensive realism, neo-classical realism 7. Social Constructivism and introduction into Critical theory	
Recommended literature: 1. Acharaya, A. - Buzan, B. (eds): The Making of Global International Relations: Origins and Evolution of IR at its Centenary. Cambridge University Press, 2019.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-ajs-ER-307	Course name: Irish Studies 1
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: The students will elaborate a seminar work on the given topic (10 pages). After the semester students will take part in the final written exam. The maximum number of points for the continuous and final assessment is 100. Credits will be assigned to the student who acquires a minimal 65 out of 100 points for the fulfilment of the given conditions. Credits will not be assigned to the student who will fail to submit the seminar work during semester or gaining less than 10 points, being a part of preliminary assessment. The student has the right to modify the seminar work if it is considered inadequate and one resit of the final written exam. The evaluation will be based on the ECTS grading scale: A (100-94%), B (93-87%), C (86-80%), D (79- 73%), E (72- 65%)	
Learning objectives: The student will be able: <ol style="list-style-type: none"> 1: To use the required facts and basic concepts studied in the subject (cultural, social, political and economic aspects of Irish identity, linguistic, cultural and social diversity of Irish Republic). 2. To define and describe required facts about Irish language, national and cultural identity, Irish culture as a part of identity, education system, language policy, revitalization, language normalization, multiculturalism, diversity. 3. To apply the acquired facts in different situational contexts (dialogues, presentations, discussions). 4. To evaluate studied facts and data on the given topics (language death, vitality of the Irish language, challenges of Irish language acquisition in the context of 21st century, future of the Irish language, European context - challenges and perspectives for the Irish language). 5. To critically analyse thoughts, statements, documents and other materials inevitable for the successful completion of the subject (following the recommended literature - books, articles, documents, etc.). 6. To elaborate a seminar work on the selected topic on the basis of acquired knowledge in the given subject 	
Brief outline of the course:	

Irish Studies 1 explores topics such as the pre-Indo-European history of Ireland, the arrival of the Celts, Ancient Brehon/Irish Law, The Vikings in Ireland (795-1014), The Battle of Clontarf (1014), The Anglo-Norman Invasion (1169), the Lordship of Ireland (1177-1542), the Statutes of Kilkenny (1366), the Tudor Conquest of Ireland, the Battle of Kinsale (1601), the Ulster Plantations, and Oliver Cromwell's Invasion of Ireland (1649-1653), etc.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-ajs-ER-311	Course name: Irish Studies 3
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: The students will elaborate a seminar work on the given topic (10 pages). After the semester students will take part in the final written exam. The maximum number of points for the continuous and final assessment is 100. Credits will be assigned to the student who acquires a minimal 65 out of 100 points for the fulfilment of the given conditions. Credits will not be assigned to the student who will fail to submit the seminar work during semester or gaining less than 10 points, being a part of preliminary assessment. The student has the right to modify the seminar work if it is considered inadequate and one resit of the final written exam. The evaluation will be based on the ECTS grading scale: A (100-94%), B (93-87%), C (86-80%), D (79- 73%), E (72- 65%)	
Learning objectives: The student will be able: <ol style="list-style-type: none"> 1: To use the required facts and basic concepts studied in the subject (cultural, social, political and economic aspects of Irish identity, linguistic, cultural and social diversity of Irish Republic). 2. To define and describe required facts about Irish language, national and cultural identity, Irish culture as a part of identity, education system, language policy, revitalization, language normalization, multiculturalism, diversity. 3. To apply the acquired facts in different situational contexts (dialogues, presentations, discussions). 4. To evaluate studied facts and data on the given topics (language death, vitality of the Irish language, challenges of Irish language acquisition in the context of 21st century, future of the Irish language, European context - challenges and perspectives for the Irish language). 5. To critically analyse thoughts, statements, documents and other materials inevitable for the successful completion of the subject (following the recommended literature - books, articles, documents, etc.). 6. To elaborate a seminar work on the selected topic on the basis of acquired knowledge in the given subject 	

Brief outline of the course:

Irish Studies 3 explores the most important events in the history of Ireland, along with discussing aspects of Irish culture such as the Irish language, music, poetry and literature, storytelling, mythology and religion, St. Patrick, the geography of Ireland, etc.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-LegE	Course name: Legal English
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: The prerequisite for passing the course is attendance at seminars (max. 2 absences are allowed) and active participation of students in class. The evaluation is in accordance with the classification scale according to the Study Regulations of Matej Bel University. a) continuous assessment: During the semester, students take two written examination. b) final assessment: The final assessment is made up of the final mark from 2 continuous written assignments. A student who fails in one or both written examinations will be examined orally in the examination period.	
Learning objectives: The student is able to independently work with technical text and communicate in his/her field to be able to follow the lectures in a foreign language. A precondition is the mastering of the language at secondary school level. The study is aimed at increasing knowledge in the field of legal English. The student is able to actively and passively controlled legal terminology, i.e., a graduate is able to read legal literature and legal documents in English, understand them within the scope of the learned vocabulary and work with them creatively, communicate on professional issues in both oral and written form.	
Brief outline of the course: Basic legal terminology - revision. Translation and work with court judgments.	
Recommended literature: BERTHOTYOVÁ, E.: Rozsudky Najvyššieho súdu SR v azylových veciach v rokoch 2008-2010 (Selected Legal Sentences). UNHCR, 2010. BRIEGER, N.: Test Your Professional English. Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-MAD-104en	Course name: Linear Regression Analysis 1
Type, extent and method of instruction: Form of instruction: Lecture / Practical Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 13 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: The evaluation of the subject is in accordance with the classification scale determined by the UMB study regulations. a) continuous assessment: written works 30% b) final assessment: written exam and oral exam 70%	
Learning objectives: The student masters and understands the basic definitions (knows which term the definition introduces, understands the meaning of other terms and symbols in the definition, has an idea about the correctness of the definition, and can illustrate the definition with appropriate examples). The student masters and understands basic theorems (knows the meaning of all terms and symbols in the theorem, has an idea about the sense and logical structure of the theorem, can support the theorem with suitable examples and counterexamples, and can prove the theorem). The student can solve basic types of problems (understands all terms and symbols in the problem statement, knows and can specifically use the computational procedures necessary for solving the problem, and can justify all steps in their problem solution). The student can express themselves in terms and symbols and, if possible, also graphically (can illustrate their reasoning with a diagram). A part of successfully completing this course also includes the presentation of a project, where it is emphasized that the project's results are presented in a way that is understandable to people without a mathematical background. The project work also involves evaluating the pros and cons of the various chosen mathematical methods.	
Brief outline of the course: Rules, Introduction, Motivation, Basics of Exploratory Data Analysis and Visualization, Summary Statistics [F: ch1, B: ch1,2, H] Estimation: Linear Model, Estimator, Geometric Intuition, Examples, Computation of Beta (QR Decomposition), Gauss-Markov Theorem with Proof [F: ch2] Statistical Inference: Basics of Hypothesis Tests, Likelihood Ratio Test, F-Distribution, Decomposition of Sum of Squares, Testing Various Hypotheses, Permutation Test, Confidence Intervals, Bootstrap Confidence Intervals [F: ch3, G: ch4,5]	

Prediction vs Explanation: Confidence Intervals for Prediction vs Explanation, Examples, Causality, Designed Experiments vs Observational Data, Matching, Qualitative Support for Causation, Interpretation [F: ch4,5]

Diagnostics: Error Assumptions (Constant Variance, Normality, Correlated Errors), Unusual Observations (Leverage, Outliers, Cook Statistics), Structural Part of the Model (Partial Regression) [F: ch6]

Collinearity: Variance Inflation Factor, Practical Issues, Errors in Predictors, Changes of Scale, Generalized Least Squares, Testing the Lack of Fit, Robust Regression [F: ch7,8]

Transformation: Transforming the Response, Box-Cox Transformation Derivation, Transforming the Predictors, Broken Stick Regression, Polynomials [F: ch9]

Model Selection: Backward Elimination, Criterion-Based Procedures (AIC, BIC), Consistency vs Efficiency, Examples [F: ch10, CH: ch2,3,4]

Shrinkage: Principal Component Analysis, Partial Least Squares, Ridge Regression, LASSO, Cross Validation [F: ch11, FHT: ch3.4, WHT]

A Complete Example on Insurance Redlining: Initial Data Analysis, Summary Statistics, Full Model and Diagnostics, Sensitivity Analysis and Discussion. Missing Data: Types of Missing Data (MCAR - Missing Completely at Random, MAR - Missing at Random, MNAR - Missing Not at Random), Single Imputation, Multiple Imputation [F: ch12,13]

Categorical Predictors: A Two-Level Factor Example, Factors and Quantitative Predictors, Interaction Terms, Factors with Multiple Levels, ANOVA, Codings of Qualitative Predictors [F: ch14]

Project Presentations: A Complete Example, Discussion, Q&A Session, Wrap Up.

The student can express themselves in terms and symbols and, if possible, also graphically (can illustrate their reasoning with a diagram). A part of successfully completing this course also includes the presentation of a project, where it is emphasized that the project's results are presented in a way that is understandable to people without a mathematical background. The project work also involves evaluating the pros and cons of the various chosen mathematical methods.	
Brief outline of the course: This course is a follow-up course on course "Linear Regression Analysis 1". It broadens the scope of the introductory course on linear regression. It's purpose is to give students an overview on many available methods for analyzing data. After generalized regression models (models for binomial data, count data, contingency tables, multinomial data), students learn about various other tools that are available - nonparametric regression, bootstrap, quantile regression and introduction to panel data analysis. Statistical software R is used throughout the course as a main tool for data analysis. <ul style="list-style-type: none"> • Introduction - summary of linear regression models - a complete example. 	

- Models for binomial data - types of problems, link function and likelihood, statistical inference, interpretation, prospective/retrospective sampling, measure of fit, overdispersion, matching.
- Models for count data - types of problems, statistical inference, interpretation, overdispersion, Poisson distribution and negative binomial distribution, zero inflated models.
- Contingency tables - nominal vs ordinal data, 2x2 tables, sampling schemes, IxJ tables, test of independency of factors, singular value decomposition, matched pairs, three-way tables and Simpson paradox, ordered data.
- Multinomial data - multinomial logit, independence of irrelevant alternatives, hierarchical models, ordered response models - proportional odds model, ordered probit model, proportional hazard model.
- Generalized linear models - distribution and link function, iteratively reweighted least squares, hypothesis tests - fit of a model, nested models, diagnostics, other GLMs - gamma regression and inverse gaussian regression, quasi-GLM
- Non-parametric regression - parametric vs nonparametric models vs semiparametric models, kernel estimators, Nadaraya-Watson estimator, Splines - basis functions, natural splines, smoothing splines, local polynomials, wavelets, model selection
- Bootstrap - sampling distribution, idea of the bootstrap, hypothesis tests in linear regression models, theory, bias correction, hypothesis tests, examples, confidence intervals, alternatives to the bootstrap.
- Quantile regression - mean vs quantile, effects on distribution, quantile regression as an optimization problem, quantile treatment effect, examples.
- Generalized additive models - additive models as a compromise between parametric and nonparametric model, backfitting algorithm, alternating conditional expectations, canonical correlations, variance stabilization, multivariate adaptive regression splines,
- Panel data models - types of data, examples, random effects model, fixed effects model, Hausman test, Breusch-Pagan test.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-lin-ER-114	Course name: Linguistisches Seminar
Type, extent and method of instruction: Form of instruction: Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: Conditions for course completion: a) Active participation in seminars, preparation of assignments and exercises, study of selected texts from the recommended literature b) Passing a written final examination. a) continuous assessment: Active participation in seminars, completion of a series of assignments and exercises. b) final assessment: The final assessment is based on continuous assessment, a written final test and consideration of active participation in the seminar. The maximum total score for the interim and final assessment is 100 points. Credit points are awarded to students who have achieved at least 65 out of 100 points.	
Learning objectives: The student is able to: - use current linguistic theories and interpret linguistic phenomena in German, - apply acquired knowledge from selected areas of linguistics in the practical use of language, - assess the relevance and applicability of current theories and models in the analysis of linguistic phenomena.	
Brief outline of the course: The seminar integrates selected topics of Germanic linguistics into the context of general linguistics. The focus is on phenomena of systems linguistics, pragmalinguistics and sociolinguistics as well as cognitive linguistics. The seminar conveys the most important current theoretical findings and methodological approaches, whereby individual phenomena are underpinned by selected examples from German and practised using the selected texts and tasks with a focus on the language pair German-Slovak.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-aju-ER-102	Course name: Methodology of Teaching English 2
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 13 Method of study: combined	
Number of credits: 4	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: In the course of the semester the students prepare in writing a summary of a specialised text in English (article, study, chapter, etc.), expressing their own opinion about it (0-10 points). In the seminars, the students will also teach – simulate a lesson (0-20 points), following a prepared lesson plan and with the use of material and technical teaching aids (0-20 points). After the end of the semester students will take a final written exam (0-50 points). Students have one chance to retake the final written test composed of the entire term curriculum. The course assessment corresponds to the standard A-FX grading scale: A (100 – 94%), B (93 – 87%), C (86 – 80%), D (79 – 73%), E (72 – 65%). Credits are assigned to the student who acquires a minimum of 65 points out of a possible 100. a) continuous assessment: Processing the scientific article, preparation of a lesson plan b) final assessment: final written exam	
Learning objectives: Students will be able: 1. To use adequate sources, materials and technical means for preparing the lesson plan 2. To choose and evaluate an adequate textbook for a given language level and curriculum 3. To encourage the pupils to speak using adequate stimulating activities 4. To evaluate and mark the written and oral expression in English correctly 5. To apply acquired knowledge when simulating an English lesson 6. To compare traditional type of ELT practice with the one based on Service Learning method.	
Brief outline of the course: The importance of productive skills. The importance of writing. Differences between writing and speaking. Writing as a means and writing as an aim. The process of writing. Pre-writing activities. Types of tasks for developing writing (controlled tasks, structure-based tasks, authentic writing tasks), overall written production according to CEFR. Teaching speaking. Importance of speaking. Speaking as a productive skill. Aspects of the speaking skill. Accuracy and fluency. Appropriacy. Developing speaking in the classroom. Types of classroom speaking activities. Accuracy-based practice (different types of drills: substitution drills, transformation drills, functional-situational drills, etc). Fluency-based practice (discussion, role play,debate). Communicative method of	

teaching. Communicative speaking activities. Format of a speaking lesson (before, during, after and transfer stage). Pre-speaking activities. Motivation. Triggering interest of learners in both writing and speaking activities. CEFR and development of speaking skills.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: E-PSSR	Course name: Political System of the Slovak Republic
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 / 0 Method of study: combined	
Number of credits: 6	
Recommended semester/trimester: 2.	
Level: I., II.	
Prerequisites:	
Course completion conditions: a) continuous assessment: Weekly assignments: 20 points Mid-term test: 20 points b) final assessment: Final exam: 60 points	
Learning objectives: Knowledge: The student will acquire knowledge in the field of political development, constitutionality, horizontal and vertical division of power. At the same time, he/she will gain knowledge about constitutional guarantees of the human and civil rights and freedoms and the party and electoral system in the Slovak Republic. The student understands the realities of the development, organization and operating of the political system of the Slovak Republic. Skills: Based on the knowledge gained by studying this subject and other political science subjects, the student is able to perform an empirical and theoretical comparative analysis of selected political systems based on common methodological starting points. Competences: The student is able to solve professional tasks related to the prediction and development of the Slovak political system. Based on the acquired knowledge and skills, he/she is competent to formulate expert opinions, participate in the creation of analytical documents and outline models for solving selected issues.	
Brief outline of the course: 1. General characteristics of the "Political System of the Slovak Republic" in the context of the principles of political theory with emphasis on the classification of certain forms of state. 2. Establishment of the Slovak Republic. Important historical and political movements of the Slovak Republic. 3. Constitution of the Slovak Republic. Its general characteristics, functions and principles. 4. Political rights guaranteed in the Slovak Republic, their usability and application. 5. Referendum. The impact of civil society on the quality and stability of democracy. 6. Legislative power and its institutionalised reflection. (National Council of the Slovak Republic - NRSR) 7. Legislative process at the National Council. 8. Executive power and its institutionalised reflection. State executive. (Office of the President of the SR and Government of the SR)	

9. Judiciary. Case law. (Judicial organisation system with emphasis on the Constitutional Court of the Slovak Republic)
10. Other, control-power elements of protection. (Prosecutor's Office, Public Defender of Rights and Supreme Audit Office)
11. Self-government in the conditions of the Slovak Republic. (The relationship between state administration and self-government.)
12. The system of political parties in the Slovak Republic.
13. Institute of Elections with application to specified components of power.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-vdsl-02	Course name: The Great Works in World Literature II
Type, extent and method of instruction: Form of instruction: Lecture Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 26 Method of study: combined	
Number of credits: 3	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: The student prepares an essay in which he/she takes a position on the issue discussed. The final assessment is passed/failed.	
Learning objectives: 1. The student will obtain an adequate overview of the origin and functioning of selected representative literary works from several civilizational and cultural areas from medieval literature to contemporary literature; will improve in professional terminology. 2. The student will acquire the specific interpretation skills necessary when working with a literary text anchored in a radically different cultural environment, thereby strengthening tolerance towards cultural differences and the will to respect the right to be different. 3. The student is able to conduct research on the assigned topic, can identify reliable sources, select relevant information from them and present it to others in a clear and useful form. 4. The student will acquire an organized sum of knowledge and a more widely applicable set of useful habits, methods, approaches, competences applicable in the interpretation of literary and non-literary texts or other cultural phenomena from various cultural periods.	
Brief outline of the course: Some of the greatest works of the European literature from the Middle Ages to the present day will be presented. It will be a selective selection of the presentation of literary worlds and the values they created. The Divine Comedy as the main work of the Middle Ages or the Renaissance? The Middle Ages as the "cradle" of European culture and education. Testaments enfant terrible. The spiciness of the Decameron and Laura's ephemerality. From Shakespeare to French classical drama. Playwrights and their (non)dramatic characters. Fairy tales that changed the world. Shock the bourgeois! Avant-gardes in world art. Literature as a place for women. On Freedom, Being and Apricot Cocktails: Existentialism in World Literature. Crazy for Life: The Beat Generation and Their Followers. Great works in small publishers.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-rus-ER-201	Course name: Лингвистика текста
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 26 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: During the semester, the student completes and submits homework and takes a written test. After completing the semester, the student takes the final oral and written exams. The maximum number of points consisting of continuous and final assessment is 100. The student has the right to 1 final exam resit. The credits will be assigned to the student who acquires a minimum of 65 points out of the possible 100 for completing the given requirements. The grading scale: A (100–94%), B (93–87%), C (86–80%), D (79–73%), E (72–65%). a) continuous assessment: Completing homework: 0–15 p. Test: 0–25 p. Seminar paper preparation: 0–20 p. b) final assessment: Oral and written final exams: 0–40 p. (written part: 0–25 p.; oral part: 0–20 p.)	
Learning objectives: The student understands Russian on the macrosyntactic level and perceives syntax as a functional component of the language system. They know and use the respective concepts and terminology, and understand that this is core knowledge and a necessity in any foreign language study (language teaching as well as translation). The student understands how the language relates to the cultural and social development and national cultural sovereignty. They understand the social position and function of the Russian language in the broader social, cultural, and pragmatic contexts and how these compare to the Slovak realities. They can apply this specialised knowledge in practice (Slovak vs. Russian comparative viewpoint) to develop communication-pragmatic competences and skills related to the analysis and creation of different types of texts in Russian, and to cultivate their interpretation skills useful in a variety of communication situations. The student understands the generalisations and systematically develops their communication and cultural competences. They also understand the information on the formal as well as semantic levels. They can describe texts as speech units in terms of linguistics, textocentrism, pragmatism, and cognitive aspects. The student understands the principles of text analysis and can use them in practice to characterise a text in terms of linguistics, semantics, and composition. They master the analytic methods and text creation principles, can analyse the linguistic specificities of a text (use and purpose).	
Brief outline of the course:	

Text linguistics as a discipline and academic subject. History of text linguistics. Structure of a scholarly text. Composition (paragraphs). Text markers, categories, functions. Structure (formal and semantic) and attributes of a text. Text units. Complex syntactic units (сложное синтаксическое целое). Relationships within complex syntactic units (serial, parallel, logical) and the language means. Formal grammatical categories of a text. Extratextual references. Intertextuality. Typology of texts (description, narration, reflective essay, directive). Dialogue as a specific type of text. Text vs. hypertext – discourse. Sensory and formal text categories (continuum, retrospection, prospection, integration, completeness), linear and vertical composition. Extratextual and intratextual references. Text typology.

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-rus-ER-213	Course name: Литература русского зарубежья XX века
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 13 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 1.	
Level: II.	
Prerequisites:	
Course completion conditions: During the semester, the student submits a seminar paper addressing the selected topic. In week 12, they take a written test. After completing the semester, they take the final oral exam. The maximum number of points consisting of continuous and final assessment is 100. The student has the right to 1 final exam resit. The credits will be assigned to the student who acquires a minimum of 65 points out of the possible 100 for completing the given requirements. The grading scale: A (100–94%), B (93–87%), C (86–80%), D (79–73%), E (72–65%). a) continuous assessment: Written exam in the 12th week: 0–30 p. Seminar paper: 0–20 p. b) final assessment: Oral exam: 0–50 p.	
Learning objectives: The student knows how Russian literature developed in the 20th century (emigration, Nobel Prize winners). They are ready to self-study literary and specialised texts. They understand how literary styles overlap with different kinds of culture. The student knows the major Russian literary figures and their works as well as period literary criticism, which enhances their knowledge of Russian history and culture. They understand the period context. The student can analyse the selected literary works. They know the developmental stages of the Russian emigration literature (3 waves, literary and extraliterary influences and phenomena, other types of material and spiritual culture). The student knows the authors and literary phenomena that were marginalised during the Soviet period.	
Brief outline of the course: 1. Russian emigration literature. Three waves of Russian emigration – basic characteristics, major figures, genres, topics – 1st wave. 2. Nikolai Berdyaev – Russian religious philosopher and existentialist. 3. Arkady Averchenko. Nadezhda Teffi – life and work, humorous and satirical journals. 4. Marina Tsvetayeva – Prague period, main collections. 5. Ivan Bunin – Nobel Prize winner, emigration. 6. Vladimir Nabokov – life, major novels. 7. The 1970s. 8. Sergej Dovlatov – life and work. 9. Vasily Aksyonov – life and work, short stories. 10. Aleksandr Solzhenitsyn: One Day in the Life of Ivan Denisovich. Cancer Ward. The Red Wheel. The Gulag Archipelago. Matryona's Hut, etc. 11. Joseph Brodsky – poetry. 12. Contemporary Russian literature in emigration

Course Description

University: Matej Bel University in Banská Bystrica	
Faculty: The Faculty of Economics	
Code: 2d-rus-ER-217	Course name: Фразеология
Type, extent and method of instruction: Form of instruction: Lecture / Seminar Course type: A (A - Compulsory courses, B - Compulsory elective courses, C - Elective courses) Recommended number of periods: 13 / 13 Method of study: combined	
Number of credits: 5	
Recommended semester/trimester: 2.	
Level: II.	
Prerequisites:	
Course completion conditions: During the semester, the student completes and submits homework and takes a written test. After completing the semester, the student takes the final oral and written exams. The maximum number of points consisting of continuous and final assessment is 100. The student has the right to one resit. Credits are assigned to the student who collects the minimum of 65 points out of the possible 100 for completing the given requirements. The grading scale: A (100–94%), B (93–87%), C (86–80%), D (79–73%), E (72–65%). a) continuous assessment: Completing homework: 0–15 p. Test: 0–25 p. b) final assessment: Oral and final written exams: 0–60 p. (written part: 0–30 p.; oral part: 0–30 p.)	
Learning objectives: The student has systematic knowledge of Russian phraseology. They can expand their theoretical knowledge individually and develop practical skills related to using Russian phrasemes in oral and written communication as well as in translation. Upon completion of the course, the student masters the Russian phraseological minimum, knows and uses commonly used phrasemes in appropriate contexts and different styles. The student follows the language standards and can identify the stylistic aspects of phraseologisms. They can also classify them based on grammar, etymology, and motivation. They can identify a phraseologism in a text and find an appropriate Slovak equivalent. The student knows and uses phraseological and bilingual dictionaries. They are actively and continuously expanding their active and passive vocabulary by new phraseologisms. The student can evaluate the paradigmatic and syntagmatic relationships among phraseologisms, knows and uses synonymic and antonymic phraseologisms.	
Brief outline of the course: Phraseology as a scholarly field and an academic subject. Phraseme – definition and functions. Semantic, pragmatic, and cultural-linguistic aspects of phraseology. Characteristics of phraseologisms. Phraseological units (PU), phraseologisms, phrasemes and their variants. Phraseme components and classification parameters. Semantic classification of phrasemes. Classification of phrasemes based on their origin. Stylistic classification of phrasemes. Word-class based classification of phrasemes. Classification of phrasemes based on their equivalence.	

The interlingual asymmetry between Russian and Slovak. The phraseo-semantic paradigm, systemic relationships in phraseology: polysemous words/phraseologisms, homonyms, synonyms, paronyms, antonyms, phraseo-semantic groups/fields. Phraseography.
